"REMARKABLE RESULTS"

"TriPollar treatments have a truly attractive profile for non-surgical body contouring and anti-aging. I have used nearly every other non-invasive technology available, and when it comes to patient satisfaction, TriPollar is superior. My patients are experiencing remarkable results from the very first treatment with absolutely no pain."

RONALD L. MOY, M.D.,
BEVERLY HILLS, CALIFORNIA

"MY CLIENTS LOVE IT"

"I am very pleased with the TriPollar technology which enables me to treat simultaneously all skin layers: dermis, and muscles. This allows me to achieve great immediate and long-lasting results in just a few treatments. The tightening effect is visible after the very first treatment and the ‘lifting’ effect can be achieved within 6-4 treatments. My clients love it and I am very satisfied with the results."
